Credit Monitoring

Credit Monitoring/Rapid Alerts

You'll receive alerts for new credit inquiries associated with your name as well as alerts for transactions like accounts in collections, new accounts, and bankruptcy filings.

Auto-on Monitoring**

We auto-enroll you into TransUnion's credit monitoring service when your Allstate Identity Protection Select service becomes active.

Financial Monitoring

Financial Transaction Monitoring

You can keep tabs on your banking and credit card accounts from multiple financial institutions in one place. You can even set thresholds for transaction amounts and balances on each account, giving you greater insight into potentially fraudulent activity. If we detect a transaction that exceeds your threshold, we'll send you an alert.

High-Risk Transactions

We'll send you an alert for suspicious activity related to certain high-risk transactions that are non-credit bureau-based like medical billing, cash advances, and student loan withdrawals.

Student Loan Activity

You will receive an alert if a new student loan account is created in your name.

401(k) Transaction Activity

Any time a 401(k) transaction falls outside of your stated thresholds, we'll notify you.

Bank Account Activity

We monitor your banking activity and alert you when a checking or savings account application is submitted in your name, or when changes are made to your personal information.
